

HSM 225.2 OFFICE SHREDDER

If you run a business, whether from your home or an office, you know how much waste paper is created day in, day out. A document shredder is not only a must if you need to destroy confidential material; it can also cut down on wasted storage space and waste collection costs.

The most powerful model of the Office series, the HSM 225.2 Office Shredder is the ideal central device for large offices that can also shred customer cards and credit cards with ease. The strip cut models (3.9 and 5.8mm) also shred CD ROMS and disks. It has quiet operation and low-noise running and comes fitted with Auto stop with LED and auto reverse in the case of a paper jam. The HSM 225.2 is available as a strip cut or cross cut device with various cutting widths and security levels (even level 5).
